

INNVISION **SP2160 PRO**

// MEDIA STATION

The **SP2160 PRO** features a flagship chip with a high-performance GPU, providing an unparalleled visual experience. It offers **8 Gigabit Ethernet ports** and supports up to **5.2 million pixels**, multi-layer display control, 8K decoding, and LAN/WiFi cloud management. Functions include document

presentation, video playback, wireless screen casting, infrared touch, electronic whiteboards, cameras, microphones, and meeting systems. Powered by Android 13, it integrates Android apps and supports synchronous and asynchronous sending, enhanced by AI-SR video upscaling and AI-MEMC smoothing.

INNVISION SP2160 PRO

Unit mm
Scale 1:2

PHYSICAL SPECS

Device dimension WxHxD [mm]	220 × 47 × 188
Weight net. [kg]	2.3

INNLIGHTS STANDARDS

WEEE-Reg.-No.: DE 55860379
Certificates: CCC, CE, CE-RED, FCC, FCC-ID

POWER

Power input	DC 12V / 3A
Power Cons. [W]	28

ENVIRONMENT

Operating Humidity /non-cond. [RH]	0% - 85%
Operating Temp. Min./Max. [°C]	-20 / +60
